How To Open Demat Account?

➤ **What is a Demat Account?**

Every news on the rise or fall in the stock market arouses the interest of many. And the first step to take the plunge is to open a Demat Account. The number of Demat Accounts has seen a significant increase in the last year.

With the help of a Demat Account, investors can hold shares and securities such as Initial Public Offerings, Bonds, Government Securities, Mutual Fund units and Exchange-Traded Funds (ETFs) in an electronic format. A Demat Account is also called a dematerialised account.

Apart from assuring the security of the aforementioned financial investments, a Demat Account also facilitates ease of their maintenance and handling.

➤ **How Does a Demat Account Work?**

A Demat Account can be opened with a Depository Participant (DP). The DP acts as an intermediary between you and the depository NSDL or Central Depository Services (India) Limited (CDSL).

You must fill out the necessary paperwork and open a Demat Account with the DP. Once the account is opened, you can transfer shares from your physical share certificate to your Demat Account. The shares are then stored electronically in the Demat Account, in a dematerialised form.

You can buy and sell Shares, Mutual Funds and other securities through the Broker. The Shares are credited or debited to your Demat Account directly by broker.

➤ **Documents Required to Open a Demat Account at bank branch**

1. **PAN card** : Mandatory for opening a Demat Account
2. **Identity proof** : Aadhaar card, PAN card, driving licence, voter ID, etc.
3. **Address proof** : Aadhaar card, driving licence, voter ID, passport, utility bills, etc.
4. **Cancelled cheque** : To link your bank account with the Demat Account
5. **Photographs** : Two passport-sized photographs
6. **Signature proof** : PAN card, bank account statement, etc.

A Demat Account is a great way to securely store and handle your financial investments.
